Gabriel and Hope are the Archangel and Archeia of the White Ray of Purity and deliver a great radiation of the Resurrection and Ascension Flames. Gabriel is a Regent Prince of the cherubim, a Regent Prince of the Virtues, a Regent Prince of the Powers and a Regent Prince of the Angels and a tireless worker on behalf of humanity. His name means "God's strength" or "God has shown Himself". The main colour Ray on which Gabriel comes to serve is white, connected with all themes to do with purity, renewals, new starts, resurrections (which are new beginnings in other dimensions) and in all matters to do with balance. It was Gabriel who appeared to Mother Mary with the Divine Plan and vision of Perfection she was to carry during the life of Jesus. To the followers of Islam he is the Spirit of Truth who dictated the Koran to Mohammed, and in Jewish legend it was Gabriel who parted the waters of the Red Sea for the fleeing Hebrews. It is also reported that he appeared to and inspired Joan of Arc. Gabriel carries our Divine Blueprint and that of the new I AM Race template. He may be called upon to reveal the Akashic Record for our personal Divine Plan. We may call forth Gabriel and Hope's white fire rays of perfection to assist us in our continued purification, resurrection into our Higher Mental Body and becoming one with our great I AM Presence expression.

Gabriel works with the white Ray of purity, perfection, hope and wholeness and with the white Flame of Purity. This flame may also be referred to as the Flame of Discipline, Flame of Harmony or as the Flame of Resurrection (the Ascension Flame), which is directed by the Ascended Master Serapis Bey in the etheric temple of the Ascension at Giza in Egypt. as Gabriel awakens us he brings us a "message" that will make us take a closer look at our deepest, innermost wishes and longings, and then see them for what they really are. Often if we haven't been paying attention to the first quiet messages, they may increase in "volume" until they have to come in the form of what we know as "wake-up calls". These may be what we perceive to be unpleasant or unwelcome events, such as near-death experiences; loss of close friends or loved ones through death or separation or other life-changing happenings.
