Sanat Kumara has held the position of Planetary Logos and Lord of the World since the darkest hours of Earth's history when human evolution lost all contact with the God Flame within. For millions of years, Sanat Kumara has sustained and guarded the flame in the hearts of humanity. He has kept the world together through his consciousness; it is through his love that makes human evolution and our own spiritual initiation possible.

Lord Sanat Kumara came to our laggard planet 18.5 million years ago with the Holy Seven Kumaras, (voluntary exiles from planet Venus), to sustain and guard the creation flame in the hearts of humanity and until sufficient numbers would awaken to their true God Nature. These Seven [Holy Kumaras](#) have for millions of years given much of Their Light, Love, and Life to assist in the forward evolution of Earth into Freedom's Star; their Flames are intricately woven, at every level, into the very structure of our being. Most who came with this great being are serving under his Rod of Initiation and are even now leading the way into humanity's ascension and the new I AM Race. This Divine Lord from Venus shares his vibration and essence of life with each of us and is the reason why we are now remembering who we are. We owe a great depth of gratitude to this selfless being of cosmic majesty and fortitude. Call to him for assistance with long-embedded errors, as he will grant full and sustaining absolution to those who seek Eternal forgiveness.

Lord Sanat Kumara established the Path of Initiation as the most accelerated and guaranteed method for spiritual evolution. Sanat Kumara also formed what is referred to as the Planetary Spiritual Hierarchy to assist his mission of Earth's evolution. He is the founder and presiding Lord of Shamballa, an etheric City of Light over the Gobi Desert dedicated to him, which holds many ashrams of higher learning and the templates for our new Divine-Human Blueprint. You can ask to go into that magnificent City of Light, which governs the Spiritual advancement of all humanity, while your physical body is at rest. Call to Sanat Kumara's radiation of the Ruby Flames (and the entire Venusian family) to fill your minds and hearts with guidance for your personal mission on Earth.
