

# **MASTER CLASS: UNDERSTANDING & APPLYING UNIVERSAL LAW IN YOUR LIFE**

**With the Ascended Master Teachers & Reverends AliceAnn & Hilary Taylor**

## **DESCRIPTION**

This eight session course is an in depth exploration of the components of Universal Law that govern your life and the Cosmos. Once one understands that this Universe is a God-Centered Universe, then one can learn to apply all levels of God's Law to a greater affect in one's life. Classes will be interactive with the overlighting Ascended Master-Teacher: Class review, soulwork, and experiential exercises may all occur within the context of these three-hour biweekly classes. The Masters' goal is to teach a comprehensive understanding and universal application of God's Law as it applies to Earth and all other Realms of the Higher Mind.

The overlighting Ascended Master Teacher (AMT) will give brief discourses on each class theme, followed by interactive discussion and intrapersonal activities. Depth of content for succeeding classes is based on student comprehension and completion of weekly assignments. The Teaching method is Socratic in nature and students will be expected to complete soulwork (AKA homework) in the form of answers to brief questions given by the Master. Students email their answers to the channel (Rev.AliceAnn@OakRose.net), no later than three days before the next class, so that an in-depth response to each student can be given by the Master.

## **OBJECTIVE:**

To understand & apply Universal Law in Life and the Greater Reality

This course will use a variety of sources and insights to give the student a comprehensive understanding of the True Law as given to the lower worlds by the Great White Brotherhood of Light. Handouts and reading selections may also be given prior to that night's topic, although homework/soulwork is solely based on the Master's intuitive questions, which are based on student class interaction and demonstrated knowledge/application.

## **SCHEDULING:**

This Master Class comprises eight sessions, which are held every two weeks. Each session runs for three hours, normally on a week night (6-9 pm US MST).

**Note:** These classes are progressive, so we strongly encourage you to faithfully attend all classes, unless otherwise advised by your overlighting Teacher.

## **WHAT YOU WILL LEARN:**

- The Principles of God's Universe and how they are applied in everyday life and in the Cosmos.
- An in-depth exploration of where you stand in Divine Order and how you may improve your life through the understanding and application of Divine Law.
