

# **MASTER CLASS: DIVINITY IN THE NEW AGE, CREATING ASPECTS OF SELF IN NOVA EARTH**

## **Description:**

This eight session Master Class is an in depth exploration of personal and collective aspects of Divinity. Once one understands that this is a God-Centered Universe, it becomes imperative to understand the varieties of Divinity that exist within each element of creation, including aspects of our own divinity and that of the cosmos. The overlighting Master will take us through a series of Teachings that will enhance our consciousness and bring each of us to a greater realization of the workings of the Divine Mind. Each class is unique in its presentation and content, but all classes together will give you a clear, comprehensive understanding of the Universe and your place in it.

The overlighting Ascended Master Teacher (AMT) will give brief discourses on each class theme, followed by interactive discussion and intrapersonal activities. Depth of content for succeeding classes is based on student comprehension and completion of weekly assignments. The Teaching method is Socratic in nature and students will be expected to complete soulwork (AKA homework) in the form of answers to brief questions given by the Master. Students email their answers to the channel (Rev.AliceAnn@OakRose.net), no later than three days before the next class, so that an in-depth response to each student can be given by the Master.

This Master-level course will be based on the overlighting Master's Teaching for that class's topic. Handouts and reading selections may also be given prior to that night's topic, although homework/soulwork is solely based on the Master's intuitive questions, which are based on student class interaction and demonstrated knowledge/application.

## **Objective:**

To understand and apply personal and cosmic aspects of divinity in one's life and within the human collective consciousness.

## What You Will Learn:

- How the Universal Mind manifests Consciousness and how you are an integral part of that Divine Consciousness.
- How to distinguish between learning about Enlightenment and actually manifest it as a living reality in your life.
- How to distinguish between the lower manifestation of thought and the higher manifestation of consciousness.
- How the mechanisms of your own consciousness create your next physicality.
- How to cultivate the skills of channeling and telepathy as Divine aspects of Higher Consciousness.
- How to utilize Cosmic Aspects of Divinity such as Ascension Seats, chambers of Light & Healing, and communication with the Masters & Elders of other Star Nations.
- How to work with all Divine Aspects of Heaven, including but not limited to: Archangels, the Nine Ranks of Angels, The Seven Mighty Elohim, the Lords and Ladies of Light and the Realms of Light.
- How to cultivate and hold the Divine Aspects of your Divinity in Christ Consciousness Awareness.
- The key aspects of Nova Earth and the New Age of Humanity and how you can assist the Spiritual Hierarchy to manifest our new Earth reality here and now.

## Duration/Scheduling:

This Master Class comprises eight sessions, which are held every two weeks. Each session runs for three hours, normally on a week night (6-9 pm US MST).

This Master Class is currently being conducted during the Northern Hemisphere Spring of 2017. The timing of future courses will be based on participant demand and the directions of the Ascended Masters Teachers.

**Note:** These classes are progressive, so we strongly encourage you to faithfully attend all classes, unless otherwise advised by your overlighting Teacher.

## Master Class Outline

### **Session 1. Nova Earth Reality and the New Age of Consciousness**

This initial Master Class provides an introduction to the Divine Aspects of Nova Earth. As you are already aware, Nova Earth Reality is a collective manifestation from the human consciousness of Earth. However, as we learn the elements of the New Age and how to work with them in our daily life, we become that manifestation of living Light/Life for our new Nova Earth Reality. This class brings together the various aspects of our new physicality, the development of our Divine Consciousness, and how all our Divine Aspects are forming here and now, and what is expected in the coming year/s for humanity's full and complete upliftment.

### **Session 2. Divine Consciousness and the Energy of the Divine Mind:**

Cosmic Consciousness is the total aspect of the Divine Mind. Out from that Source Consciousness comes all that is, the Energy of Creation and all aspects of universal existence and manifestation. As you learn to acquire the four stages of Consciousness, you will elevate your awareness and expand your own consciousness accordingly.

### **Session 3. Thought versus Divine Consciousness**

Thought inhibits Divine Consciousness as it is of the lower mind, whereas feeling is the true Divine Aspect of Awareness. As you learn to let go of the grasping aspects of thought and ego, you will begin to naturally cultivate the Divine Aspects of Conscious-Awareness. This is the integration and cultivation of Christ Consciousness Awareness, which on a larger scale is the ultimate progression to Enlightenment and self-realization and mastery. You can by virtue of this simple letting go of thought become a living Earth-Master, ready for the four stages of Higher Consciousness and full and complete Enlightenment.

### **Session 4. Enlightenment and Your LightBody**

Enlightenment is a *State of Awareness* that cannot be acquired by knowledge; only by its natural occurrence when the individual consciousness is ready. When the individual God-Consciousness is fully realized in this life or another, the Energies of Heaven and your own I-AM Awareness will elevate you into your Lightbody. Each body of Light is unique, each is manifested by the natural elevation of the soul. And, it is this Awareness of Christ Consciousness in action that manifests the change in you and in the Cosmos.

## **Session 5. Channeling and Telepathy**

Channeling for God and the Higher Beings of Light is an acquired skill; still, you must activate the facets within consciousness (crown chakra) to be able to cultivate the skill. Channeling is not telepathy, but it does share many Divine Aspects within consciousness. There are classifications of channeling and types of telepathy, each can be learned; to acquire them you must cultivate a presence of mind-heart awareness that allows the activation in your current physical reality. These steps may seem slow to manifest at first, but with practice, dedication and the knowledge as to how to open and cultivate these skills you will be able to discern how these gifts of Higher Consciousness may manifest in your life.

## **Session 6. Becoming a Divine Messenger for God**

This second class on channeling and telepathic receptivity is a further opportunity to work with the Masters and your classmates in order to more clearly understand your gifts in this age of Awakened Christ Conscious-Awareness. We are all receiving and transmitting as Divine Messengers for God and the Light of Heaven at this time of Earth's transition to 5D. However to become a Divine Messenger for God in life your service must be dedicated and steadfast before God and before the High Holy Ones of Heaven. This is predicated on the nature of your desire to serve God in life; how you choose to do it and what gifts/skills you are able to cultivate in consciousness and in fortitude. As we each begin this Divine Aspect of Nova Earth, to receive and transmit, we must enrich our consciousness with Divine Presence, Awareness, and the Great Peace. A steadfast focus on daily meditation, journaling, and daily timeliness of receiving channeled messages or Divine transmission must be adhered to in order to become a reliable clear channel/messenger for God.

## **Session 7. Earth, the Hierarchy, and the Cosmos**

As Ascension goes forth and the forerunners of Divine Consciousness learn to cultivate their Higher Mind (Divine Consciousness), more Divine Aspects of God's Universe (Creation/Cosmos) can be known. Understanding the gifts of the Masters, Elders of Light, and aspects of the Divine Kingdom will assist you in furthering your own Higher Self Awareness. Ascension Seats of the Masters and Logoi, Chambers of Light and releasement (from the Elders of other Star Nations), as well as a clearer picture of the Structure of Divinity will assist you, not only to cultivate these Divine Aspects, but will be a significant teaching platform for you as you assist others to cultivate their own Divine Aspects.

## **Session 8. Collaboration with the Divine Mind and Powers of Heaven**

As your consciousness develops into the Higher Divine Aspects of its becoming, you will now more easily understand and be able to work with the High Holy Ones of God's Universe. Understanding the Divine Order (structure of God's Creation) is essential, but the actual practice of working with the Higher Realms of Heaven is crucial for those who wish to channel and work with the Divine Aspects of Light for the betterment and upliftment of humanity. Archangels and the nine Kingdoms of Angels, Angels of Light from the Great Great Great Central Sun (TuLa), the Mighty Seven Elohim and the Five Secret Elohim, together with the Divine privilege of contact with the Lords of Light in the Higher Realms of Heaven are all available to those who answer the Call and who know themselves as Children of the One God (Father-Mother Creator Most High). Sometimes it is for the purpose of sending forth Divine Light, sometimes it is to send healing forth, and sometimes it is for personal realization and mastery; in each case the openness of the Divine Aspect of Consciousness/Awareness is required, no matter at what level you have been able to manifest at this time. Remember Cosmic Law always gives you exactly what is needed at any given Divine moment and you are always able to allow all or as much as you desire to manifest your next level of attainment.
