Paul the Venetian is the Lord of the 4<sup>th</sup> Ray of Harmony through Conflict highlighting love, beauty and generosity. Born Paolo Cagliari (1528-1588), he was named "Paul Veronese" after his birthplace in Verona. Paul the Venetian is known for his creativity, generosity and love of beauty. His motto is "Love is the All-in-all.". Throughout his many creative lifetimes he was recognized as a spiritual revolutionary who saw Beauty as the most powerful catalyst for enlightenment.

His lifetimes were in Atlantis, where he transferred the Liberty Flame to Peru; the Incan Civilization, where he brought wealth and beauty through his art to the Empire; the Age of the building of the Great Pyramids where he created works of esoteric majesty along with the Master Builder El Morya; and an Italian Renaissance master artist who through his love of the Divine brought life to sacred sculptures.

He ascended as Paolo Veronese on April 19, 1588 from the Chateau de Liberte in southern France after his passing at the age of sixty. You can call upon Master Paul the Venetian to help you understand perceived conflict in your life, let go of stagnant relationships, and strengthen your creativity and love for the beauty that is the Divine in you and in all things. He will also assist with the balancing of the heart chakra, tolerance for all beings, and initiation into the ascended life.

The Fourth Ray of Harmony through Conflict, Chohan Paul the Venetian, overlit by Archangels Gabriel and Hope and Elohim Purity and Astrea, is primarily about understanding the perceived conflict in your Life that you may still be choosing. It is also about letting go of old relationships and people that are no longer suited to you energetically. In many instances, it shows a person who is stagnating with their creative energies. You have aspects of seeing your creative gifts, and being the wild woman/wild man energy, but can't maintain this in your reality. The key is to work on your judgments and false beliefs, to trust in yourself and also to look at your issues of self worth and self-esteem. It is also possible that you may experience problems in relationships of Love particularly, or use your sexual energy in an inappropriate manner. The positive side to this ray shows a person who is ready to utilize their creative energies, and take a big leap of faith into the Abyss, and the jewels that are yours for the claiming. It is further about appreciating your Self and others. In the New Age of Aquarius this Ray will take on the mantle of "Harmony through Diversity", which is an acknowledgement of the Love all humanity shares with God and with one another.
