As one of our greatest guiding Avatars for the Earth, Saint Germaine is powerfully assisting Humanity and especially the mission of Planetary Light Servers as we ascend this planetary body. He is credited with facilitating this Violet Ray, its Fire and Flames to the modern world which has accelerated the human's ability to progress through their soul evolution to attain their freedom through ascension.

Together with his Twin Flame, the Ascended Lady Master Portia, he is the great sponsor of Freedom's Flame, while Portia is the sponsor of the Flame of Justice. He has held embodiments as Joseph, the father of Jesus and husband of Mary, Merlin in the Court of King Arthur, Christopher Columbus and Francis Bacon who wrote the Shakespeare plays. Saint Germaine has his own dispensation and student body of "I AM" students. Referred to as the God of Freedom, we may call his Love to strengthen us with the qualities of freedom, mercy, forgiveness, ceremony, justice and alchemy.

Saint Germaine's main task now is in working under the direction of the MahaChohan as a bridge to enable humanity and the Earth to access the Higher Rays on our path to Ascension. In association with all the Angelic Hosts he is a representative of the 12 Solar Hierarchies, heading the 1st division and the lessons brought through the constellation of Aquarius.

Saint Germaine remains the Keeper of the Violet Flame of Transmutation, which works with violet Light and the Violet Flame, and is also keeper of the Flame of Freedom. He and his twin flame, the Lady Portia hold and keep the balance of Freedom and Justice for us through the bridging point, attribute and gift of Divine Mercy, for at one end of the scale you could have total freedom, which might result in chaos and anarchy, and at the other you could have total justice, which might result in dictatorship and oppression. Applying both with Mercy keeps each in balance with the other, hopefully bringing out the positive and beneficial aspects of each.

Saint Germaine's current role is to help bring enlightenment to humanity in order to help Earth progress to the next evolutionary level, and also to bring about the manifestation of the Higher Rays onto Earth. This includes the planning for and guidance of those currently incarnated who are working with these Rays as ascended Beings who have chosen to live here in physical embodiment.
